

# 70,000 BOLSHEVIST TROOPS SAID TO HAVE INVADED GALICIA

Czechs have begun to mobilize against the Hungarians.

LONDON, March 24.—The revolution in Hungary caused great excitement in Vienna, but did not surprise those who were aware of the true condition of affairs, says the Vienna correspondent of the Telegraph. He says the Communists of Hungary have long been the real masters of the country and have been only awaiting an opportunity to get rid of Count Karolyi, who is considered to have been never more than a figurehead.

The correspondent says there are no elements in Hungary capable of making a stand against the extremists and that even in Czechoslovakia there are strong Bolshevist influences. He points out that experts agree there is very grave danger of Bohemia following the example of Hungary. The situation is attributed by the correspondent to the failure of the Peace Conference at Paris to recognize the seriousness of the situation and occupy Budapest with Entente troops. He says the only way to save the situation is to send American or British forces there, but adds:

"Where a battalion would have sufficed formerly a brigade would be necessary now."

## HUNGARIAN SOVIET BACKED BY RUSSIA OPENS WAR ON ALLIES

Bolshevik Forces Reported in Berlin to be Moving Into Hungary.

BERLIN, March 24.—The new Hungarian Soviet Republic has formed an alliance with the Russian Bolsheviks and declared war on the Entente, Budapest dispatches announced today.

Bolshevik forces were reported to be moving into Hungary to aid the new Government against French and other Allied troops, which are scattered throughout the country.

The action of the Karolyi Ministry in resigning and turning the country over to the Communists was said to have resulted from dissatisfaction at Allied occupation and proposed adjustment of the Hungarian frontiers by the Peace Conference.

Representatives of Premier Lenin are reported to have assisted in forming the new Socialist-Communist Ministry, which is constituted as follows:

Alexander Garbai, president; Eugen Barga, minister of finance; Josef Pogany, minister of war; Wilhelm Boin, minister of socialization; Bela Kun, minister of war.

The new cabinet has issued the following proclamation:

"Uniting with the world's Bolshevists, we rise against the Entente and imperialism and proclaim general mobilization. All opponents will be executed."

German Press Sees Lots of Trouble for Allies.

BERLIN, March 24. (Associated Press).—The Berlin press, from the most extremely radical to the most decidedly conservative, sees in the events which are occurring in Hungary a terrible warning for the Entente. This is the view taken, for instance, by the two extremes of the Freiheit and the Tageszeitung.

"Entente imperialism," says the latter newspaper, "assisted Bolshevism into the saddle in Russia by the frustration of Kerensky's peace plans. It has now raised Bolshevism in Hungary out of the depths of its impotence. If these two lions should not suffice a third would carry terrible consequences into the hostile lands."

## 11 PER CENT. OF PETROGRAD POPULATION DIES IN MONTH

4,000 Deaths Daily in Moscow, From Disease and Starvation, Reported by Americans.

PARIS, March 24.—More than 112,000 persons, or more than 11 per cent. of the entire population, died in Petrograd in February, according to Russian police statistics received here. On Feb. 1 the total population of Petrograd was 900,000. In addition to the deaths during the month, 7,000 persons left Petrograd, and on March 1 the population was about 800,000.

American relief workers who left Moscow on Feb. 12 say that deaths in that city early in February averaged 4,000 daily. They assert that conditions there were similar to those in Petrograd, where smallpox, typhus, starvation and the "hunger plague" were raging unchecked.

Coffins are no longer sold in Moscow, but are only rented for use at funerals.

## WILSON TO PUT MONROE DOCTRINE IN WORLD LEAGUE

Work On the Covenant Expected to be Completed at To-Night's Session.

PARIS, March 24.—An amendment to the League of Nations covenant covering the Monroe Doctrine, advocated by President Wilson and Col. House, is expected to be presented at to-night's session of the League Committee. It is expected to-night's session will complete work in the League Council.

The proposed amendment would prevent any power from acquiring territory in the Western Hemisphere by conquest, purchase, treaty or otherwise, unless the Americas consented.

This article was reported today to be meeting with opposition from within the commission, especially by the British and French, who have extensive interests in the Americas.

The proposal concerning the Monroe Doctrine is held by some to mark a considerable recession from Wilson's original position that the covenant would not be altered, except in a minor way.

The proposals for changes in the covenant submitted by Senator King of Utah have not yet been officially commented on.

Japan's recommendation for an amendment providing racial equality was not presented at Saturday's meeting. It may be reserved until the constitution is debated by the plenary session. Many of the delegates are understood to favor equality of nations, but not of nationalities.

## U. S. EXPORTS TO ENGLAND BEHIND PRE-WAR STRIDE

Shipping of Commodities, Except Food, Away Short Because of Import Embargo.

WASHINGTON, March 24.—American concerns are far behind their pre-war stride in reports to England as a result of British import restrictions. Export of most commodities, except food, is running millions short of pre-war shipments, United States commerce reports show.

Complaints are flooding the department from American exporters who went to England upon the signing of the armistice, eager to resume normal commercial relations.

These complaints say refusal of the British Board of Trade to license imports is shutting Americans out of many English markets in which in 1914 there was a big demand for American goods.

It is pointed out the English import restrictions do not apply to goods from British colonies. Manufactured products show the greatest falling off, according to the commerce reports. Especially noticeable drops are shown in automobiles, typewriters, manufactured aluminum, electrical machinery and manufactured cotton products. Raw cotton is being imported into England in increasing quantities.

## TOLMAN "HEIR" POSTED AS DESERTER FROM NAVY

Sailor Last Heard of When He Started East to Claim Part of \$7,000,000 Estate.

CHICAGO, March 24.—Sailor Daniel Tolman was posted today as a deserter from the United States Navy. When last heard from, about a month ago, Danny had discovered himself to be the long lost heir of Daniel H. Tolman, King of the Money Sharks, and was headed for New York and Philadelphia to come into his own.

Tolman's \$7,000,000 estate was left to the widow, Katherine, and a son, Elmer. Danny Tolman's discovery was that his dad, John H., was the loan shark's "missing" son. The heirs say Tolman never had a missing son or any other son than Elmer.

Danny Tolman's trip East was financed by friends, who cannot imagine what has become of him.

Lieut. Col. Roosevelt Silent on Political Plans

Dodges Questions About Move to Run Him for Aldermanic President of Legislature.

"Not a thing, not a thing; tight as a drum, tight as a drum," was the indignant Rooseveltian declaration to discuss political futures made by Lieut. Col. Theodore Roosevelt as he hurried into the luncheon of the ninth annual meeting of the Boy Scouts of America at the Hotel Commodore today.

"Today" is being discussed by Republican leaders as a candidate for President of the Board of Aldermen or for a seat in the State Senate or the Assembly.

Lieut. Col. Roosevelt addressed the Boy Scout luncheon immediately after the passage of resolutions warmly commemorating his father. These resolutions were prepared by Hermann Hagedorn, biographer for Col. Roosevelt, who up to the time of his death was Chief Scout Officer of the Boy Scouts of America.

## VERNON CASTLE DIED POOR; ESTATE LESS THAN \$1,000

"Lived Up" Practically Every Dollar He Earned, Says Attorney for Widow.

Vernon Castle died poor. The estate of the dancer and film, who was killed while flying for the army about one year ago, amounts to less than \$1,000—perhaps not more than a few hundred.

His will, leaving all his property to his wife, has not yet been probated, but the old rumor of the "wealth" he had amassed in the midst of the public dancing craze is exploded. William Klein, counsel for Mrs. Castle, said today:

"Like so many actors, Vernon Castle lived up practically every dollar he earned. His income was certainly large at one time, but there is little left. The estate is in fact smaller than I had thought it was."

## "STOKES JUST SITTING BACK," IS "DIVORCE" EXPLANATION

(Continued from First Page.)

will have to be something of the sort now. It might have all been fixed up except for the filing of this paper. Why don't you go see Miller? Perhaps he knows why he fled the thing."

It became apparent from the effort to get a statement from Mr. Stokes that he is of varying residence. His office is a building which from outward appearances would not seem to have been inhabited for many months. It was once a residence, but the front hall is lined with a row of big safes almost as dusty as the outside windows. When the reporter first called there he was told by a young woman stenographer that Mr. Stokes was "at home with his family" at No. 317 West 78th Street. She seemed at a loss why anybody should imagine he might live anywhere else.

At the 78th Street house it was said Mrs. Stokes was out in the park with her mother, Mrs. Miller, and her children. Mr. Stokes, the maid said, might be found at his new hotel, the Hamilton, in West 73d Street, where he had a suite.

Later, when informed that Mr. Stokes was not at the Hamilton, another maid said Mr. Stokes lived right there with Mrs. Stokes, though he was frequently away for several days at a time. He was there visiting the children yesterday, she said. She also volunteered the information that she didn't think there would be any divorce, because she thought "this was one of those squabbles which high strung people often have, as everybody knows."

Ronald Miller was not available. The identity of the names of the mother of Mrs. Stokes and the self-divulging anticipatory correspondent caused an inquiry to be made of Mrs. Stokes's secretary as to whether Ronald Miller were not a cousin of Mrs. Stokes. Mr. Petrie said he had nothing more to say regarding the matter; he thought he had said enough.

Emory R. Buckner, the lawyer who filed the notice of appearance for Ronald Miller, said today that he had not withdrawn the notice and would not withdraw it. No action affecting Mr. or Mrs. Stokes was filed up to a late hour this afternoon.

The floating fortress carries twelve 14-inch guns, each capable of hurling a 1,500-pound projectile fifteen miles. Its displacement is 34,000 tons and its length 614 feet.

## HUNGARIAN REVOLT HELPS THE LEAGUE, SAYS HITCHCOCK

Democratic Senate Leader Believes Sentiment in Favor of Wilson Plan Is Growing.

WASHINGTON, March 24.—Chairman Hitchcock of the Senate Foreign Relations Committee, in a statement today, said in his opinion the Bolshevist wave in Europe now manifested in Hungary would do much to solidify the Allies in their peace discussion and do more to put through the final adoption of the League of Nations plan than anything else.

Mr. Hitchcock said the League should be attached to the peace treaty and adopted as soon as possible.

"I believe," said Senator Hitchcock, "that sentiment for the League is gaining. Undoubtedly the desire to know about it is growing and from the tone of the many invitations to speak that I am receiving I should say this desire for information is friendly rather than hostile. When it comes to saying 'yes' or 'no' on the League's covenant as submitted my belief is that those Senators opposing the League in its present form will bow to that practically universal public sentiment that demands some sort of a League and will say 'yes.'"

Senator Hitchcock said the position of Japan on the racial question was, in his opinion, the best thing that had happened, and would tend to increase sentiment in this country for the league. The Japanese stand, he said, was largely for "home consumption."

Senator Hitchcock leaves Washington to-night for Chicago, where he will address the Chicago Association of Commerce Wednesday.

## THROWS MAN INTO RIVER FROM AUTO TO FOIL HOLD-UP

Newark Prisoner Says He Hurlled Victim Over Bridge When Robbery Was Attempted.

A declaration that he had thrown into the Passaic River a man who tried to rob him in an automobile while passing over a bridge near Little Falls, N. J., was made by Louis Chaky of Paterson Street, Newark, according to the police.

Chaky said he spent several hours yesterday afternoon riding in an automobile with three men he had met in a saloon. He did not know their names.

When he threw the man out, the police say he told them, the man went into the river and presumably was drowned. Chaky jumped from the machine, which carried the others away.

The police are holding Chaky while they investigate his story.

## MONKEY HUNT STAGED AROUND VICTORY ARCH

Circus Men Seek to Recapture Blue-Faced Mandrill With Wissa-wassa Nuts.

A small army of monkey hunters is after a big blue-faced Simian, which the truthful circus press agent today declares is hiding on top of the Victory Arch in Madison Square.

The animal is a sailor, a blue-faced mandrill that was being taken to Madison Square Garden for the opening of the Ringling and Barnum and Bailey circus next Saturday.

When the caravan halted at the Garden, still according to the press agent, late Sunday night, sailor managed to open the door of his cage and went skipping across Madison Square toward Fifth Avenue. The circus men say he was last seen climbing up the side of the Victory Arch.

A hunt was organized immediately. Trainers armed with lassoes, traps, whips and wissa-wassa nuts, of which the mandrill is said to be inordinately fond, were stationed under the arch. If the whips fail to scare the sailor down, the circus men hope the fragrant wissa-wassa nuts will lure him back to captivity before the 27th Division parade passes under the arch to-morrow.

LONDON, March 24.—While representatives of the "Triple Alliance" and the Government were continuing their negotiations today, 6,000 miners went on strike in the Rhondda valley region. They announced the walk-out was in protest against the Government's failure to grant the miners' full demands.

Railway workers in Liverpool passed resolutions expressing indignation at the Government's compromise offer and demanding a strike. Railway union officials described the situation as "difficult."

J. H. Thomas, General Secretary of the National Union of Railway Men, said that most of the demands of the railway men had been conceded in principle and from that point of view negotiation had been a success. The difference, he added, was between the Government and the railway men, but between the unions concerned. Efforts were being made to obtain clearer interpretations of the principles of the final offer of the Government.

Three Barracks Destroyed, 200 Gobs Drenched and Two Hurt.

A fire, believed to be of incendiary origin, started at 11 o'clock last night in one of the barracks erected in the grounds of the 12th Regiment at the Pelham Bay Naval Training Camp, and spread rapidly.

Two large barracks were burned down and another gutted before volunteer sailor bucket brigades and firemen of three city companies got the flames under control after an hour's work.

The men had been turned in almost two hours before the alarm. Dressing as they ran, they hurried to the scene of the fire, manned the emergency hand fire apparatus and formed bucket brigades.

Capt. Latimer, U. S. N., camp commandant, personally directed the efforts of more than 2,000 volunteer fire fighters until the arrival of the city fire apparatus.
